Multi-Point Trim

NMP and EMP Series

Quality

FSB offers a full range of multi-point trim to fit both North American and European multi-point locksets.

For your convenience we offer trim sets which include your choice of lever, the escutcheon, spindle, and screws for 1 3/4" thick doors. All multi-point trim kits are sold less cylinder. FSB also offers multi-point escutcheons separately to meet your customer needs.

Design Advantage

FSB has a wide selection of designer levers options for our multi-point trim kits.

We also offer an even greater selection of individual lever and multi-point escutcheons to meet your customer design requirements.

Specifying Multi-Point Trim

North American (NMP) and European (EMP) Multi-Point

Lock Type	Trim Function	Lever Design	Trim Set
