

FSB Premium

When only the best will do!

FSB Premium is recognized the world over for clean timeless designs and flawless natural finishes. Our door furniture complements contemporary design when no detail can be overlooked.

Vogue modern minimalism? Warm contemporary earth tones? Classic traditional? FSB has over 60 different lever and knob designs, 15 standard natural finishes, and an endless selection of powder coated colors to meet your design needs. Available

with the industry's widest selection of lock options, your doors can be wood, metal, plastic or glass, swing or slide, and be of virtually any thickness or width.

Match design and finish of all your door and window hardware. We provide a complete family of door pulls, door stops, hinges, and bathroom accessories.

When you require the best. FSB, Genau!

Premium Finishes Shown

FSB Transitions

FSB at a budget friendly price!

Taking a page out of the German Car Manufacturers play book, FSB has introduced a new series of German manufactured door furniture called Transitions.

Designed with budget in mind, Transitions is forged solid brass door furniture available in five of the most popular FSB Premium lever designs (1035, 1058, 1075, 1076, and 1241) and four new transitional designs (1250, 1251, 1252, and 1253). All designs come in polished and satin nickel plated, chrome plated, brass color PVD, natural clear coated polished

and satin brass, and natural dark oxidized.

Transitions uses the same standard and narrow style mortise locks, tubular latches, and sliding door lock as the Premium Series ensuring the same high level of security and dependability.

While you can't drive it down the street, there is no doubt Transitions will turn heads when company comes to visit.

Genau!

Absolutely ...

Genau (*guh-now*) is a German word often used in conversation as a response to a statement or question. FSB North America has playfully adopted Genau as our favorite German word which means exactly, precisely, of course, or absolutely.

Taking a page out of the German automobile manufacturer's play book, FSB has added a new series of door furniture. Mercedes has their S and E class of luxury sedans, BMW the 7 and 5 series, and FSB now has Premium and Transitions. Each has

their unique position and price point while all enjoy classic German design underpinned by unmatched German engineering and manufacturing.

So whether you live in a high rise penthouse condo or enjoy life in suburban USA, FSB has a solution for your budget.

FSB? Genau! (*"Heck Yeah" our favorite urban translation*)

Transitions Finishes Shown

Transitions

130 Years and still innovating ...

Over the last 130 years, FSB has earned the reputation of manufacturing products with smart clean lines and impeccable finish that feel good in your hand. German manufactured and engineered, we are recognized as the leader in the door furniture world and as expected, our products are an investment to achieve a look of class and distinction when the very best is required.

Transitions is a new series of door furniture designed to allow more owners the ability to bring FSB into

their work spaces and homes. At a cost of 20% to 30% less than FSB Premium, Transitions is solid forged brass levers and trim available with our most popular lock applications in seven plated and natural finishes.

Transitions delivers new sophisticated designs with a splash of sass, as well as our most popular timeless designs.

FSB is no longer just the hardware your dad owns!
