

# Correct care for your new **TECNOLINE**<sup>®</sup> metal fittings

## **Electro-plated fittings: Ni, Nimatt, Chr**

---

### **Ni – Polished and nickel-plated brass**

- Nickel will develop a subtle, natural patina over the years
- Nickel-plated fittings are not suitable for exterior applications, garages or damp cellar rooms
- Gently remove slight soiling and fingerprints with a dry microfiber cloth
- Please remove persistent dirt with mild rinsing agent only and subsequently rub down the fittings until dry
- We recommend *Nigrin Metalpolish* for occasional care and polishing, available in specialised trade or at **TECNOLINE**<sup>®</sup>
- Please do not use cleaning agents containing acid, alcohol, petrol, abrasives or other aggressive components

### **Nimatt – Matt brushed and nickel-plated brass**

- Nickel will develop a subtle, natural patina over the years
- Nickel-plated fittings are not suitable for exterior applications, garages or damp cellar rooms
- Gently remove slight soiling and fingerprints with a dry microfiber cloth
- Please remove persistent dirt with mild rinsing agent only and subsequently rub down the fittings until dry
- Please do not use cleaning agents containing acid, alcohol, petrol, abrasives or other aggressive components

### **Chr – Polished and chrome-plated brass**

- Gently remove slight soiling and fingerprints with a dry microfiber cloth
- Please remove persistent dirt with mild rinsing agent only and subsequently rub down the fittings until dry
- We recommend *Nigrin Metalpolish* for occasional care and polishing, available in specialised trade or at **TECNOLINE**<sup>®</sup>
- Please do not use cleaning agents containing acid, alcohol, petrol, abrasives or other aggressive components

# Correct care for your new **TECNOLINE®** metal fittings

## **Massive fittings without coating: V2A, V2Apol, M**

---

### **V2A – Satin stainless steel**

- Suited for outdoor use (please note: iron in direct vicinity to the fittings can result in surface rust!)
- Carefully touch-up scratches and worn spots with a coarse sponge
- Do not use abrasive polish or cleaning agent

### **V2Apol – Polished stainless steel**

- Suited for outdoor use (please note: iron in direct vicinity to the fittings can result in surface rust!)
- Scratches can be touched-up anytime with customary polish
- Normal rinsing agents and glass cleaners are suitable for cleaning
- Do not use abrasive cleaning agents

### **M – Polished brass**

- Polished, unpainted brass will develop a natural patina over the years
- Polishing agents are suitable for touch-up of the fittings; special brass polish is available on the market

**We will be glad to provide for you touch-up of your old metal fittings –  
price and delivery time upon request.**
